

## Multiletramentos em Prática: A Produção de Materiais Didáticos para o Ensino de Inglês no CELIN

Vitória G. Breder, Marcellly X. Bastos & Carlos Henrique R. Valadares

ODS 4 - Educação de qualidade

### Introdução

O Curso de extensão em língua inglesa da UFV (CELIN), tem como objetivo oferecer aos alunos de Letras, a oportunidade de **desenvolver as habilidades e competências linguísticas exigidas pelo mercado de trabalho.**

Tendo como **metodologia principal a comunicativa**, o curso busca portanto a interação com os alunos, **priorizando a capacidade de se comunicar em situações reais a partir da utilização de materiais autênticos.**

Portanto, é incentivado que os professores do projeto criem e adaptem, para suas aulas, os materiais didáticos que serão utilizados em cada nível.

### Objetivos

Sendo assim, o objetivo deste trabalho é mostrar os materiais criados por esses professores, que tem como base um **ensino multiletrado, focando num ensino significativo, onde o aluno possa de fato aplicar o que está sendo aprendido na vida real, incentivando o pensamento crítico e a criatividade.**

Os materiais variam entre: criação de textos para leitura e escrita, seleção de vídeos, adaptação de jogos e muitos outros. E essa adaptação é feita ao nível e interesses do aluno, de acordo com as necessidades específicas observadas em sala de aula.

### Conclusões

Como resultado, foi possível perceber que **a prática de elaboração de materiais didáticos contribui para a formação de professores mais autônomos e criativos, preocupados com a personalização do ensino.** Também contribui para a reflexão da prática pedagógica ao permitir selecionar atividades que alcancem os objetivos de aprendizagem propostos pelo professor. **Além disso, a utilização dos conceitos da Pedagogia dos Multiletramentos nas aulas auxiliam o pensamento crítico, a conexão cultural com os países falantes da língua-alvo, a interação e colaboração entre os alunos, trazendo mais conexão com a realidade vivida por cada um.**

1) Read the following text to know more about the TV Show *Modern family* and answer the questions about it.

**Modern Family** is an American television sitcom, created by Steven Levitan and Christopher Lloyd. The series follows the lives of three diverse family set-ups, who are interrelated through businessman Jay Pritchett and his two adult children, Claire and Mitchell.

Jay remarried a much younger woman, Gloria Delgado, a Colombian immigrant woman. Jay has a son with Gloria, named Joe, and a stepson from Gloria's first marriage, named Manny.

Claire is a stay-at-home mother. She is married to Phil Dunphy, who is a realtor. They have three children: Haley, a stereotypical teenage girl, Alex, an intelligent and nerdy middle child; and Luke, the only son.

Mitchell is a lawyer who is in a same-sex relationship with Cameron Tucker, a former music teacher. The two have adopted a baby daughter, Lily, of Vietnamese origin. At the end of the show, they adopt another child, Rexford.

As the title implies, the sitcom portrays the complexities of a modern-day extended family. Much of its humor emerges from situations that, while exaggerated for comic effect, reflect challenges and dynamics familiar to many contemporary households.

#### Hugo Calderano's Triumphant Comeback at the World Cup

Brazilian table tennis star Hugo Calderano has made history by winning the 2025 Table Tennis World Cup in Macau, China. In the final match, Calderano defeated world number one Lin Shidong with a score of 4–1, securing the first-ever World Cup title for both himself and Brazil in this sport. Despite facing a home crowd supporting his opponent, Calderano displayed remarkable composure and skill throughout the match.

This victory is especially significant considering the challenges Calderano has faced since the 2024 Paris Olympics. After failing to secure a medal, he experienced a period of depression and self-doubt. He has been open about the emotional toll this took on him, admitting that he had been feeling very bad recently and was still trying to recover. His performance had suffered, and he had not been making a good season so far. However, he has been working diligently to overcome these obstacles, demonstrating resilience and determination.

Throughout the tournament, Calderano has been demonstrating exceptional form, overcoming several top-ranked players. In the semifinals, he achieved a remarkable comeback against China's Wang Chuqin, turning a 1–3 deficit into a 4–3 victory. This consistent high-level performance has been a testament to his dedication and training. As a result of his World Cup triumph, Calderano has climbed to fourth place in the global rankings, marking a significant milestone in his career.

Calderano's achievements have not gone unnoticed. He has been receiving widespread acclaim for breaking new ground in a sport traditionally dominated by Asian and European athletes. His victory has inspired many in Brazil and across the Americas, where table tennis has been gaining popularity. Calderano himself has expressed disbelief at his success, stating, "It's crazy to talk about this. Before the competition started, I didn't imagine I could beat the best in the world."
